

APPENDIX 1 Indigenous species that occur (or are likely to have occurred) in Banyule, their significance and their distribution across vegetation communities

KEY TO TABLE

<i>Conservation significance of species in Victoria and Greater Melbourne</i>	<i>Status of native species in Banyule</i>																				
<p>The number of species in each category is given in brackets.</p> <p>VIC (VROTs). Species listed as rare or threatened in Victoria (NRE 1999).</p> <p>End endangered in Victoria (4) Vul vulnerable in Victoria (13) Dep depleted in Victoria (0) Rare rare in Victoria (9) K poorly known in Victoria (suspected of being endangered) (16) PThr adapted category for taxa (including undescribed taxa) for which there is supportive evidence for listing as rare or threatened in Victoria (3)</p> <p>GM GREATER MELBOURNE (Port Phillip Catchment) Regionally significant flora are species listed as threatened in Greater Melbourne (CE and R1-R4 species).</p> <p>CE critically endangered in Greater Melbourne (27)</p> <p>R1 regionally endangered in Greater Melbourne (39)</p> <p>R2 regionally vulnerable in Greater Melbourne (69)</p> <p>R3 regionally rare or restricted in Greater Melbourne (41)</p> <p>R4 regionally depleted in Greater Melbourne (111)</p> <p>L1 locally depleted or threatened in North East Melbourne (93)</p> <p>L2 locally rare or restricted in North East Melbourne (39)</p> <p>L3 other locally significant flora in North East Melbourne (36)</p> <p>L4 other locally significant flora in Banyule (35)</p>	<p>1 observed over last fifteen years and assumed to currently survive;</p> <p>1m considered locally rare or threatened and may not survive beyond the short term unless appropriately managed;</p> <p>2 formerly recorded but not observed for over five years and currently presumed extinct;</p> <p>3 known only from an introduced population;</p> <p>4 no confirmed prior record but likely occurred as located in similar habitat in surrounding district (within 5 km of municipal boundary);</p> <p>5 no prior record for Banyule or district but known from similar habitat elsewhere in the lowlands of North East Melbourne (small selection of species only).</p> <p>Vegetation community annotations</p> <p>Species are dealt with in order of their growth form as follows</p> <table border="0" data-bbox="1189 826 2159 1136"> <thead> <tr> <th></th> <th style="text-align: right;"><i>Appendix Page</i></th> </tr> </thead> <tbody> <tr> <td>Trees and Mistletoes</td> <td style="text-align: right;">2</td> </tr> <tr> <td>Tall Shrubs and Climbers</td> <td style="text-align: right;">2</td> </tr> <tr> <td>Low Shrubs</td> <td style="text-align: right;">4</td> </tr> <tr> <td>Sedges Lilies and Rushes</td> <td style="text-align: right;">6</td> </tr> <tr> <td>Orchids</td> <td style="text-align: right;">10</td> </tr> <tr> <td>Grasses</td> <td style="text-align: right;">12</td> </tr> <tr> <td>Herbs</td> <td style="text-align: right;">14</td> </tr> <tr> <td>Daisies</td> <td style="text-align: right;">20</td> </tr> <tr> <td>Mosses, Liverworts and Hornworts</td> <td style="text-align: right;">22</td> </tr> </tbody> </table> <p>The columns list occurrences of species in sub-communities. + means a species occurs in all sub-communities of a given community. Occurrences in brackets () are where a species has been planted in a sub-community where it is considered not to be indigenous. A few records from literature were excluded as they could not be verified.</p>		<i>Appendix Page</i>	Trees and Mistletoes	2	Tall Shrubs and Climbers	2	Low Shrubs	4	Sedges Lilies and Rushes	6	Orchids	10	Grasses	12	Herbs	14	Daisies	20	Mosses, Liverworts and Hornworts	22
